How to Access Live Trades on TeconLab

Step 1: Go to the Website

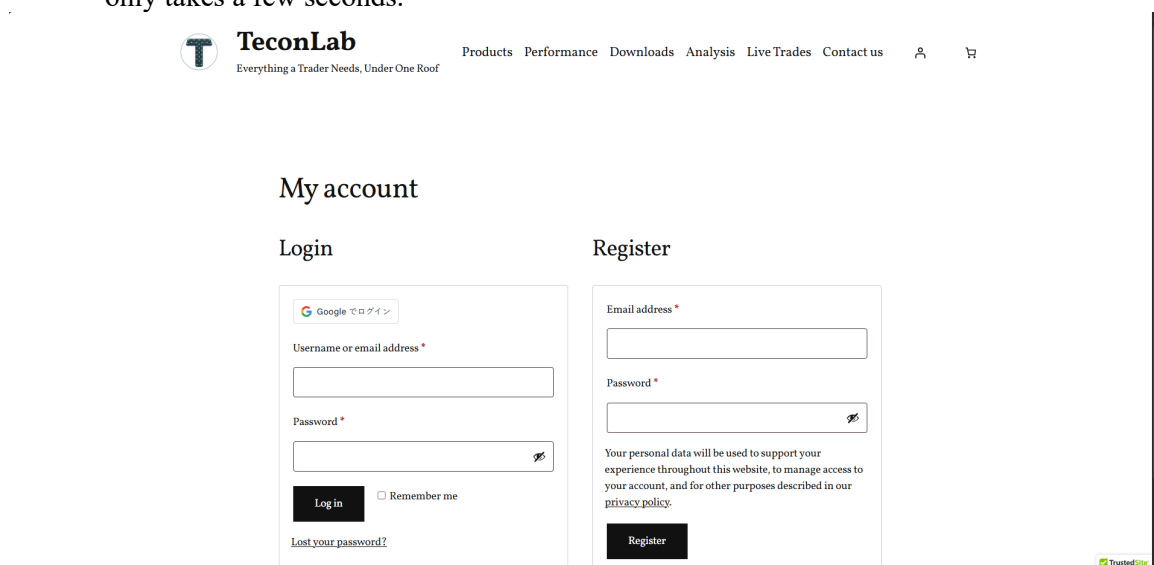

Visit <https://www.TeconLab.com>

Once the homepage is open, look for the user icon in the top-right corner of the page and click on it (as shown in the image below).

Step 2: Log In or Register

- If you already have an account, log in using your **username** (without “@... .com”) or **email** and your **password**.
- If you are new, simply enter your **email address** and **choose a password** to register — it only takes a few seconds.

Step 3: Open the Live Trades Page

After logging in, click the **Live Trades** button on the website's header.

This will take you to the page where live AI-driven trading activity is displayed.

Step 4: Connect Using Your API Key

To view trades, you'll need your **API key**.

If you don't have one yet, please apply through the following link: [Waitlist - TeconLab](#).

Once you receive your API key:

1. Enter it in the input box.
2. Press **Connect**.
3. The system will display all **open positions** for the selected symbol.

For example, the image below shows open **XAUUSD (Gold)** trades taken by our AI in a real trading account.
